

Capsule

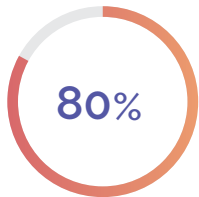

Capsule websites are the fastest and most cost-effective way to build your next property website. Capsule websites include all the tricky and technical property page types, property CMS, Maps, and CRM integration. Capsule removes up to 80% of the build time and cost compared to traditional website build methods.

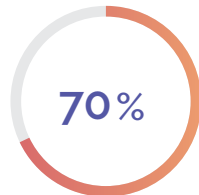

The Capsule Solution

Depending on your design needs, you can select one of our existing Capsule Templates and be up and running in days, mix and match with our suite of website designs in Capsule Studio or design from scratch with Capsule Custom. Either way, you'll get the Property website you want quicker and without the technical hassle at a significantly lower cost.

Time Saved

Removing up to 80% of the build time

Cost Saved

Removing up to 70% of the build cost

Why Capsule?

Full capabilities to edit pages, images, text, colours

No tricky and expensive APIs to configure

News, about us, blog and social media integration
